

## cayla communication

news - assignments - events

April 2013

It is a pleasure for us to be able to announce that Tijmen Muijs recently joined cayla group as our new colleague and as a new member of our team.

Tijmen spent over 20 years in general-, operational-, and supply chain senior management positions with various well known companies.

His experience lies both with OEM's (Tandon, VTech Electronics, Philips Electronics, Jabil Circuit) as well as with third party logistics services providers (Exel, TDG, Nagel Group) working within different industries like FMCG, Consumer Electronics, Household & Bodycare, DIY, but also within Automotive, Telecom & Network Solutions, Medical Systems and Medical Consumables.

Working mainly from the Netherlands Tijmen also assumed responsibilities for operations in East-Europe, South-east Asia, Mexico and North America, where he set up supply chains as well as manufacturing operations. These positions also exposed him to various demanding operational restructuring activities including divestments and acquisitions.

In the recent past he did co-operate with cayla group since 2006 on a number of projects in his role as Managing Director of TDG Benelux.

In his new role at cayla group he will assume responsibility for all supply chain management related consulting activities, joint responsibility for the continued development of our consulting services to the transport + logistics sector as well as a major role in the development of our overall activities within the Benelux countries.

Tijmen is fluent in the Dutch, English and German languages, which will allow him to be involved in projects across most European countries.

We are looking forward to a long, close + successful co-operation and numerous interesting projects in the Benelux and all over Europe with Tijmen + you.

Alexander P. Adelmund  
Managing Director
