July 2016

We are pleased to be able to inform you about interesting activities for one of our new clients from the Czech Republic, which is active within the transport + logistics sector.

cayla group supports EUROWAG's entry into the Iberian market

EUROWAG (W.A.G. payment solutions, a.s.), which is a fast growing business services company specializing from the Czech Republic offering a complete range of payment + other services for international transportation companies with activities in several European companies, engaged cayla group to support EUROWAG's entry into the Iberian market.

In January 2017 EUROWAG was able to sign the first transaction for the purchase of a strategically located piece of land in Spain near La Jonquera, which will allow EUROWAG to establish its wholly owned petrol + other services station for its European customers.

This project for EUROWAG was executed by cayla group's Spanish team, which operates from our Barcelona office. Ángel Olivera Muñoz and Walter Verhelst executed this project for + on behalf of EUROWAG. These activities included location survey, selection, negotiations, documentation and due diligence. After the transaction cayla group provided the right project engineering partner for EUROWAG to build the station.

We wish EUROWAG good luck with the start of its operations in Spain and look forward to continue to work closely + successfully with EUROWAG on its efforts to extend its footprint across all of Europe.

For further information on EUROWAG's activities:
